

Numbers of 2022 and Acknowledgements to the Reviewers

In 2022, ten papers (among eleven manuscripts with final decision) were published in the volume 5 of *Journal of the Geological Survey of Brazil (JGSB)*, in three regular issues. Rejection percentage was 10%. The Editorial Board acknowledges the authors who submitted their research, and the cooperation of the reviewers for the time they dedicated, since peer review is essential for the publication process, in order to ensure the desired high quality standards for the published papers.

Evandro Klein
 Editor-in-Chief
 On behalf of the Editorial Board
